

Windows 8: Reimagined for learning.

Windows 8 delivers an experience that brings learning to life and helps schools prepare students with 21st century skills. Students and educators can choose a user experience that fits their needs, collaborate like never before, and do it all from just about anywhere. With Windows 8, the world is your classroom.

Make learning personal.

- Customize the Start screen by pinning your favorite people, apps, study notes, and homework assignments.
- Picture passwords let you combine a picture with a unique set of gestures to create a truly unique password.
- Search, share, and access information seamlessly through Windows charms.
- Sign in to any of your Windows 8 devices and instantly see your profile, settings, and apps.

Get immersed in learning.

- Browse the full range of education apps in the Windows Store. From note taking to lesson planning, there's an app designed for every student and educator need.
- Live tiles draw you in and deliver relevant information right up front.
- Multitask and increase productivity by leveraging both apps and the desktop experience.
- Docking apps side by side makes it easy to research and write a report simultaneously.

Connect in entirely new ways.

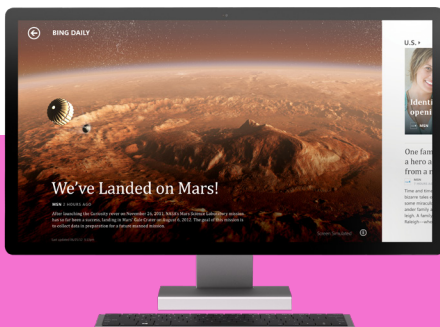

- Go anywhere and stay connected with built-in apps like Mail, Calendar, Photos, Messaging, SkyDrive and more.
- With cloud connectivity, Windows 8 provides an anytime, anywhere learning experience across a range of different devices, both in and out of the classroom.
- With Windows To Go, you can turn any computer into your computer. Sign in and boot up your complete Windows 8 experience directly from a USB flash drive.

Enjoy flexibility built in.

- Windows 8 provides the convenience of a tablet with the productivity of a PC.
- Optimized for a touch experience, Windows 8 is equally comfortable with keyboard and mouse, or pen computing.
- Windows 8 can easily connect to nearly any device or peripheral. Print, access homework from a USB, or project a presentation in a snap.

Do more. Worry less.

- Windows 8 provides a more secure learning experience wherever you choose to do your schoolwork.
- With SmartScreen, Windows 8 devices check new apps or websites so you're safer from malware and viruses, no matter what browser you're using.
- Web browsing can be easily monitored to ensure safety and privacy online.

Experiencing is believing.
