|                               |  | EMERGENCY OVERVIEW   |  |  |
| Caution!                      | The toxicological proper   | rties of this material have not been fully investigated. May cause eye, skin, and respira<br>tract irritation. Target Organs: No data found. |  |  |
| Potential                     | Health Effects   |  |  |  |
| Eye:                          | May cause eye irritatio  | lay cause eye irritation.  |  |  |
| Skin:                         | May cause skin irritatio   |  |  |  |
| Ingestion:                    | May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The toxicological properties of this substance have not been fully investigated. |  |  |  |
| Inhalation                    | May cause respiratory i investigated.  | tract irritation. The toxicological properties of this substance have not been fully   |  |  |
| Chronic:                      | No information found.  |  |  |  |
|                               |  | Section 4 - First Aid Measures   |  |  |
| Eyes:                         | Immediately flush eyelids. Get medi  | eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and local aid.   |  |  |
| Skin:                         |  | Flush skin with plenty of water for at least 15 minutes while removing contaminated s. Wash clothing before reuse.                           |  |  |
| Ingestion:                    | • •  | ng by mouth to an unconscious person. Get medical aid. Do NOT induce vomiting. If rt, rinse mouth and drink 2-4 cupfuls of milk or water.    |  |  |
| Inhalation                    | · · · · · · · · · · · · · · · · · · ·  | osure and move to fresh air immediately. If not breathing, give artificial respiration. If<br>ult, give oxygen. Get medical aid.             |  |  |
|                               |  |  |  |  |

Notes to Treat symptomatically and supportively. Physician:

## Section 5 - Fire Fighting Measures

As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved

skin, and respiratory

the upper and lower

or equivalent), and full protective gear. During a fire, irritating and highly toxic gases may be generated by General thermal decomposition or combustion. This material in sufficient quantity and reduced particle size is Information: capable of creating a dust explosion. Use extinguishing media most appropriate for the surrounding fire. Use agent most appropriate to Extinguishing Media: extinguish fire. Use water spray, dry chemical, carbon dioxide, or appropriate foam. Autoignition Not applicable. Temperature: Flash Point: Not applicable. Explosion Not available Limits: Lower: Explosion Limits: Upper: Not available NFPA Rating: health: 1; flammability: 0; instability: 0; Section 6 - Accidental Release Measures General Use proper personal protective equipment as indicated in Section 8. Information: Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately, Spills/Leaks: observing precautions in the Protective Equipment section. Avoid generating dusty conditions. Provide ventilation. Section 7 - Handling and Storage Remove contaminated clothing and wash before reuse. Use only in a well-ventilated area. Minimize dust Handling: generation and accumulation. Avoid contact with eyes, skin, and clothing. Do not breathe dust, mist, or vapor. Keep container tightly closed. Avoid ingestion and inhalation. Wash clothing before reuse.

Store in a tightly closed container. Store in a cool, dry, well-ventilated area away from incompatible substances. Storage: Keep away from metals. Keep refrigerated. (Store below 4°C/39°F.) Store protected from moisture. Store protected from light and air.

Section 8 - Exposure Controls, Personal Protection

| +   | ACGIH       | NIOSH       | OSHA - Final PELs |
|---|-------------|-------------|-------------------|
| L-Cysteine hydrochl <br>  oride monohydrate | none listed | none listed | none listed  <br> |

OSHA Vacated PELs: L-Cysteine hydrochloride monohydrate: None listed

**Engineering Controls:** 

Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate ventilation to keep airborne concentrations low.

Exposure Limits

Personal Protective Equipment

Eyes: Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Skin: Wear appropriate protective gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respirators: A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 must be followed whenever workplace conditions warrant respirator use.

Section 9 - Physical and Chemical Properties

Physical State: Crystalline powder

Color: white

Odor: none reported

pH: Not available

Vapor Pressure: Not available

Vapor Density: Not available

|   |                 | Evaporation Rate: Not applicable.  |  |  |  |
|---|-----------------|--|--|--|--|
|   |                 | Viscosity: Not available   |  |  |  |
|   |                 | Boiling Point: Not applicable.   |  |  |  |
|   |                 | Freezing/Melting Point: 175-177.8 deg C  |  |  |  |
|   |                 | Decomposition Temperature:   |  |  |  |
|   |                 | Solubility in water: Soluble in water.   |  |  |  |
|   |                 | Specific Gravity/Density: Not available.   |  |  |  |
|   |                 | Molecular Formula: C3H8NO2SCIH2O   |  |  |  |
|   |                 | Molecular Weight: 175.64   |  |  |  |
|   |                 | Section 10 - Stability and Reactivity  |  |  |  |
| Chemical Stability:                             |                 | Stable at room temperature in closed containers under normal storage and handling conditions. May discolor on exposure to air and light. |  |  |  |
| Conditions to Avoid:                            |                 | Incompatible materials, dust generation, moisture, excess heat, strong oxidants.   |  |  |  |
| Incompatibilities with Other<br>Materials       |                 | Metals, strong oxidizing agents.   |  |  |  |
| Hazardous Decomposition<br>Products             |                 | Hydrogen chloride, carbon monoxide, oxides of nitrogen, oxides of sulfur, oxides of sulfur, carbon dioxide.                              |  |  |  |
| Hazardous Poly                                  | merization      | Will not occur.  |  |  |  |

Canada

Canadian WHMIS Classifications: Not controlled.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all of the information required by those regulations. CAS# 7048-04-6 is not listed on Canada's Ingredient Disclosure List.

US Federal

## TSCA

CAS# 7048-04-6 is not on the TSCA Inventory because it is a hydrate. It is considered to be listed if the CAS number for the anhydrous form in on the Inventory (40 CFR720.3(u)(2)).

## Section 16 - Other Information MSDS Creation Date: 7/13/1999 Revision #9 Date 7/20/2009

The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantibility or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall the company be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential, or exemplary damages howsoever arising, even if the company has been advised of the possibility of such damages.
