Magnesium sulfate heptahydrate, 98+%, ACS reagent

[MSDS](#) [Specifications](#) [Categories](#) [3D model](#) [Molfile](#) [Other grades](#)

General		^
Product Name	Magnesium sulfate heptahydrate	
CAS RN	10034-99-8	
ACD Code	MFCD00149785	
Structure		
Molecular Formula	Mg O4 S . 7 H2 O	
Molecular weight	246.47	
Pack size	{ Error }	
Physical		^
Melting Point (°C)	770	
Safety		^
Categories		^
	Preparation, Purification and Analysis > Routine Reagents > ACS Grade	
	Preparation, Purification and Analysis > Inorganic Salts > Magnesium	
	Preparation, Purification and Analysis > Analytical Reagents for General Use	
Other		^
Parameter	Solubility Solubility in water: 710 g/L (20°C) Solubility in other solvents: soluble in glycerol sparingly soluble in alcohol Origin synthetic Reference: Merck 15,5755	
3D model	Show
